## CAREER OBJECTIVE:

Enthusiastic full-stack developer and Graphic Designer, proficient in both front-end and back-end technologies. Dedicated to creating robust, user-centric applications. Seeking opportunities to contribute expertise to dynamic projects and teams.

## EXPERIENCE:

- **Web Developer Intern| Techbuggy (1/12/2023 - 31/ 05/2024)**  
Description:
  - Developed backend solutions using Go.
  - Designed websites and logos, contributing to client projects with effective planning user-friendly designs.
  - Demonstrated strong work ethic and innovative problem-solving.
- **Full Stack Web Developer Intern | Oasis Infobyte\* (1-11-2023 to 1-12-2023)**  
Description:  
Collaborated on diverse projects, actively contributing to the development of full- stack web applications. Implemented features using technologies such as HTML, CSS, JavaScript, Bootstrap React, Node.js.

## PROJECTS:

- **Full-Stack Development and Design for Canadian Startup:**
  - Designed the entire website and created the company logo, meeting all client needs.
  - Developed the backend using Go, and the frontend using React and Bootstrap.
  - Managed version control and collaboration using Bitbucket Atlassian.
  - Delivered a user-friendly and efficient website.
- **E-commerce Website:**  
Developed a fully functional online shopping website using HTML, CSS, JDBC, JS. Implemented a user-friendly interface and integrated JDBC for seamless database connectivity. Utilized React for dynamic and responsive front-end interactions.

- **Virtual Dairy:**

Created a virtual diary platform incorporating HTML, CSS, JDBC, and React, facilitating daily journaling; successfully integrated a feature to capture and store related photos

- **Background remover website:**

Built a background remover website using HTML, JavaScript, and CSS, integration for advanced features. Showcased front-end proficiency in crafting a user-friendly interface with a focus on responsiveness

- **Online quiz website:**

Created dynamic quiz site with HTML, CSS, and Django. Implemented user authentication, interactive quizzes, and result tracking. Showcased skills in front-end (HTML, CSS, JS, Bootstrap) and back-end (Django) development.
