

'(Smart Resume Enhancer

Ø=ÜÝ Summary:

Highly motivated final-year CSE student with a strong foundation in DSA, Web Development, ML, and DL, evidenced by 300+ LeetCode problems and a 9.0/10.0 GPA. Proficient in Python, modern web stacks, LLMs, and vector databases, demonstrated through innovative projects like an AI Virtual Interviewer. Eager to apply technical skills and problem-solving expertise to build scalable AI-powered applications.

SUMMARY

Highly motivated final-year Computer Science and Engineering student with a robust foundation in Data Structures & Algorithms (DSA) and full-stack Web Development. Demonstrated exceptional problem-solving abilities by completing over 300 LeetCode problems. Proficient in developing innovative applications leveraging Python, Machine Learning (ML), Deep Learning (DL), modern web frameworks, Large Language Models (LLMs), and vector databases. Eager to contribute to the development of scalable applications and cutting-edge AI-powered tools.

SKILLS

- * **Programming Languages:** Python, C, Java, SQL
- * **Web Technologies & Frameworks:** HTML, CSS, React.js, Bootstrap, Node.js, Express.js, MongoDB
- * **Data Science & AI/ML:** Machine Learning, Deep Learning, Natural Language Processing
- * **AI/ML Frameworks & Libraries:** TensorFlow, Keras, Langchain, Hugging Face
- * **Tools & Databases:** Git, GitHub, ChromaDB, Pinecone, Faiss

EDUCATION

- RAJIV GANDHI UNIVERSITY OF KNOWLEDGE TECHNOLOGIES** | Nuzvid, AP
- Bachelor of Technology, Computer Science and Engineering** | GPA: 9.0/10.0
- * Expected Graduation: May 2026

PROJECTS

- VINTERVU: AI Virtual Interviewer** | May 2025 (Expected Completion)
- * Developed a full-stack AI-powered virtual interviewer web application using React.js, Node.js, Express.js, and MongoDB.
- * Implemented dynamic technical Q&A generation, comprehensive resume parsing, and precise skill extraction utilizing the Gemini API.
- * Engineered a robust feedback system including response evaluation, instant feedback, webcam integration, and performance analytics dashboards with Recharts.
- * Ensured data security and user authentication through `bcrypt.js` and secure file uploads.
- * **Technologies:** React.js, Tailwind CSS, Vite, Node.js, Express.js, MongoDB, Gemini API, pdf-parse, Multer, bcrypt.js, Recharts, react-webcam

****VIDEO TRANSLATION AND SUMMARIZATION TOOL** | April 2025**

- * Designed and built a Flask-based application for seamless video translation and optional summarization.
- * Leveraged `ffmpeg` and OpenAI's Whisper API for accurate audio extraction and transcription from video content.
- * Integrated Google Translator and Hugging Face Transformers for advanced AI-driven translation and summarization functionalities.
- * ***Technologies:** Flask, ffmpeg, Whisper API, OpenAI API, Google Translator API, Hugging Face Transformers, HTML, CSS

****BLOG WEBSITE** | August 2024**

- * Created a secure, full-stack blogging platform employing Node.js, Express, MongoDB, and React.
- * Implemented robust user authentication with JWT, enabling seamless post creation, editing, and commenting functionalities.
- * Integrated a rich-text editor and developed RESTful APIs to facilitate efficient content management and publishing.
- * ***Technologies:** Node.js, Express, MongoDB, React, Tailwind CSS, JWT, RESTful APIs

CERTIFICATIONS & ACHIEVEMENTS

- * Data Science with Python - Harvard University
- * IBM AI for Everyone - Harvard University
